Subject: Statoil Assessment and Remediation Workplans

Good Afternoon Mr. Worstell,

It was good to see you again last week in Hannibal and I hope you had a good weekend.

I wanted to touch base with you regarding the ongoing/future work in regards to the Eisenbarth Pad. Specifically the work plans that Statoil is preparing for the extent of contaminations sampling/assessment as well as for any remediation that may be necessary. USEPA does have an interest in this work and I was hoping to be able to at least review the proposals they submit for approval to ODNR and possibly provide assistance and/or any comments. Please let me know what your thoughts are on this and/or if you think this is possible.

Thank you,

JJ Justice
